Business Intelligence & Analytics Leader | Executive Dashboards & Decision Support | Python • SQL • Power BI • DAX

Analytics leader with 9+ years of experience turning fragmented data into trusted insights, scalable reporting, and the foundation leaders rely on to make confident decisions. Builds analytics teams from scratch, along with the executive dashboards (Power BI, SQL) and the cloud pipelines feeding them (Python, Azure, Snowflake, Bronze/Silver/Gold medallion architecture). Analysis helped secure \$5M+ in funding. Master's in Data Science and Master's in Public Administration, a mix that reads both the technical problem and the business one.

TECHNICAL CAPABILITIES

Business Intelligence & Analytics: Power BI (DAX, Power Query, data modeling / star schema, time-intelligence), Tableau, Excel, VBA, SQL, PostgreSQL

Data Engineering & Integration: Python ETL/ELT development, Azure (Blob Storage, Data Lake, DevOps CI/CD), Snowflake, medallion architecture (Bronze/Silver/Gold), Change Data Capture (CDC) & watermarking, REST & SuiteQL API integrations (Square, NetSuite, Zoom, Pipedrive, Salesforce, IntakeQ), Data dictionaries, Data mapping documentation

Programming & Development: Python (NumPy, Pandas), R, Git/GitHub

Geospatial Analysis: ESRI ArcGIS Pro, ESRI StoryMaps

Project Management & Collaboration: Jira, Confluence, MS SharePoint, MS Teams, Slack, Monday.com

PROFESSIONAL EXPERIENCE

Served With Honor, Full-Time, May 2025 – July 2026

Business Intelligence Manager, Remote

- Designed and deployed executive KPI dashboards in Power BI using advanced DAX, star-schema data models, and time-intelligence measures across NetSuite financial and IntakeQ clinical and operational data, uncovering \$75K in untapped revenue opportunities and giving leadership real-time visibility into revenue, appointments, and cancellation trends
- Built automated data-quality audits, pricing-validation workflows, and resilient ingestion (checkpointing, retry, and rate-limiting logic), eliminating manual reconciliation and sustaining 99%+ data accuracy across financial and operational systems
- Architected and deployed Python ETL/ELT pipelines on Azure (Functions, Blob Storage, Data Lake) with GitHub-based CI/CD through Azure DevOps, ingesting Square, NetSuite, Zoom, Pipedrive, and IntakeQ (healthcare practice-management/EHR) APIs into a Snowflake medallion model (Bronze/Silver/Gold) and reducing manual data processing by 20+ hours monthly
- Designed a Change Data Capture (CDC) deletion-reconciliation framework using soft-delete flagging and watermarking, parameterized to run across 38+ NetSuite source tables, correcting a 44% overstatement in customer reporting and permanently closing a data-drift blind spot in the warehouse
- Led data infrastructure modernization by provisioning SQL instances and implementing Azure cloud solutions, successfully integrating Genesys Cloud and Salesforce within 5 months to support organizational growth
- Established enterprise data governance framework with comprehensive data dictionaries and mapping documentation in Confluence, standardizing definitions and improving data accessibility across business units

Harris County, Texas, Full-Time, August 2016 – April 2025

Applied Analytics Manager, Harris County Public Health, Remote

Mar 2024 – Apr 2025

- Built and led high-performing Applied Analytics team from inception, establishing workflows and governance standards that reduced deliverable turnaround time by 2 weeks and improved stakeholder satisfaction
- Recruited, hired, and directly managed a team of 5 analysts, owning performance reviews, individual career development, and technical mentoring that strengthened team capabilities and delivery quality
- Conducted advanced geospatial analysis using ArcGIS Pro to identify underserved communities and quantify service gaps, directly supporting \$3.3 million Mobile Health Expansion grant award
- Designed and delivered technical training curriculum on data analytics methodologies, Power BI, and SQL, upskilling team members and establishing best practices for reproducible analysis

- Developed Standard Operating Procedures for end-to-end analytics workflows, including data extraction, transformation, visualization, and reporting, ensuring consistency and quality across all team deliverables
- Partnered with cross-functional stakeholders to translate complex public health questions into analytical frameworks, delivering actionable insights for program planning and resource allocation

Lead Analysis & Applications Analyst, Harris County Sheriff's Office, Hybrid

Aug 2016 – Mar 2024

- Selected as one of two analysts to partner directly with leadership on the inception of the Crime Analysis and Intelligence Division, helping plan and build the new unit from the ground up
- Automated 15+ recurring reports with reusable Power BI and Python templates, cutting roughly 8 hours of manual work per week (about 400 hours a year) and freeing analysts for higher-value investigative work
- Led analytical efforts supporting \$1.7 million public safety program funding by creating comprehensive data visualizations and reports using SQL, Excel, and MS Report Builder to demonstrate program impact and community need
- Built and led a 4-analyst taskforce and redesigned the Crime Analysis Division training program, developing data-driven curriculum and hands-on materials that cut training costs 79% while standardizing investigative analysis practices
- Developed predictive crime analysis models and interactive dashboards using Power BI, ArcGIS Pro, and SQL Server, enabling targeted patrol strategies that contributed to 20% crime reduction in focus areas
- Analyzed inmate healthcare utilization patterns and medication spending trends, identifying cost optimization opportunities that resulted in \$988K reduction in jail medical expenses

EDUCATION

Eastern University, Saint Davids, PA

Master of Science in Data Science, December 2024

Relevant Coursework: Foundations of Machine Learning, Applied Machine Learning, Database Management, Data Engineering Fundamentals

Texas Southern University, Houston, TX

Master of Public Administration, December 2013

Southern University Agricultural & Mechanical College, Baton Rouge, LA

Bachelor of Science in Sociology, December 2011

Bachelor of Science in Criminal Justice, December 2011

CERTIFICATIONS

SnowPro Associate: Platform Certification (July 2025)

Intelligence & Analysis (December 2023)

ArcGIS Pro Geospatial Analysis (February 2021)

Data Analysis Essential Skills II (June 2022)
